## EDUCATION

### Vivekananda Institute Of Professional Studies

*Masters of Computer Application*

Pitampura, Delhi

2022 – 2024

### Vivekananda Institute Of Professional Studies

*Bachelor of Computer Application*

Pitampura, Delhi

2019 – 2022

## EXPERIENCE

### Associate Full Stack Developer

*Edvanta Technologies*

September 2024 – Present

*Noida, Delhi Ncr*

- Developed Edvanta's main website using Nuxt.js, implementing static site generation (SSG) by automating blog content fetch from Notion, converting to Markdown, and triggering GitLab CI/CD pipelines for seamless site rebuilds.
- Engineered backend services for Profiled, Edvanta's cognitive assessment platform, implementing REST API routes, authentication layers, and integrating LLM (Large Language Model) API calls for real-time skill recommendations and interactive learning modules.
- Developed a Shopify Checkout Extensibility extension and a custom Shopify Admin app, enhancing Shopify Plus store customization with tailored checkout experiences and backend workflow automation.

### Full Stack intern

*Department of design, IIT Delhi*

Sep. 2023 – december 2023

*Hauz Khas, Delhi*

- Developed an Interview Analysis Web Application using React.js and Node.js, enabling researchers to efficiently annotate, analyze, and visualize qualitative interview data.

## PROJECTS

### Brooch And Co | Next Js, Shopify Headless, Tailwind, Vercel

Jan 2025 – Present

- Developed an E-Commerce Website using nextjs and shopify headless , Currently Live and accepting orders
- Responsive Design to support any device
- used custom nextjs frontend for the stand out look

### Profiled | Vue js , Node js , MongoDB, LangChain, ChromaDB, AWS

Jan 2025 – Present

- Developed an AI learning platform while collaborating with a team while my main focus was on developing the backend
- Currently in V1 tho we conducted a pilot program for school children to test it out
- Implemented a chatBot which always gives answers according to your current learning journey
- Developed an AI interview Bot as a feature in Profiled

### Edvanta Website | Nuxt js , Node js , Notion, Gitlab CICD, Netlify

Sep 2024 – Feb 2025

- Developed the Website for my company with a team of 5
- All the blogs are static and have superFast loading time thanks to custom notion to gitlab logic which builds website each time a new blog is added
- Responsive to be compatible with any device

### LexiEvo | Next js , Node js , Vapi, Azure, Smtp

March 2025 – Present

- My Very Own AI platform for lawyers
- eliminates the troubles of inbound and outbound calls for lawyers trying to focus on actual work
- AI Receptionist Handles Everything and lets the lawyer know the details of the calls
